Background and Purpose

Associated Students, Incorporated recognizes the importance of protecting the organization, its operations, its employees and its assets against financial risks, operational breaches and illegal activities. Therefore, it is incumbent upon ASI's Board of Directors and management to institute and clearly communicate a fraud prevention policy to both internal and external customers, vendors and partners.

ASI recognizes a zero tolerance policy regarding fraud and corruption. All matters raised by any source will be taken seriously and properly investigated.

This policy applies to any irregularity, or suspected irregularity, involving employees as well as students, consultants, vendors, contractors, outside agencies doing business with employees of such agencies, and/or any other parties with a business relationship with ASI.

It is the intent of ASI's Policy on Fraud to promote consistent organizational behavior by providing guidelines and assigning responsibility for the development of controls and conduct of investigations.

ASI's Policy on Fraud is established to facilitate the development of controls that will aid in the detection and prevention of fraud against ASI by:

- 1) Initiating proactive practices to discourage fraud and abuse by employees and others,
- 2) Assuring a fair, structured, and consistent approach to investigations of suspected fraud and abuse, and
- 3) Articulating the process to be followed when responding to allegations of fraud and abuse in ASI programs, functions or activities. By having an established process, ASI is able to institutionalize the approach and reduce the role of personalities in decisions regarding each case.

Policy Statement

It is the policy of the Associated Students, Incorporated to prohibit the commission of any fraudulent activity by the directors, officers, employees, and volunteers of the ASI and its subsidiaries, as well as agents of any program, activity or function financially supported and administered by the ASI (hereinafter known collectively as “representatives”). This prohibition extends to and includes activities that might be perpetrated for the benefit of the ASI.

Any investigative activity required under this policy will be conducted without regard to the suspected wrongdoer’s length of service, position/title, or relationship to the corporation.

Management is responsible for the detection and prevention of fraud, misappropriations, and other irregularities. Each member of the management team must be familiar with the types of improprieties that might occur within his or her area of responsibility, and be alert for any indication of irregularity.

The Director of Administrative Services will provide proper written notification to the University Director of Internal Auditing and the ASI Board of Directors within 12 hours of any incidence of actual or suspected theft, defalcation, fraud, or other irregularity involving ASI funds, property or other resources. Information about such incidences may arise from within or from external sources and may involve employees or others outside the organization. 4.0 Confidentiality

All information received in connection with an investigation will be treated confidentially.

If an investigation results in a recommendation to terminate an individual, the Human Resources Manager and legal counsel will review the recommendation before any such action is taken. The final decision to terminate an employee will be made by the employee's hiring authority. Should the
