

**You have seen our commercials but.....**

## **What do we actually do?**

In the event you become sick or injured AFLAC policies **pay cash directly to you.** You use it as you see fit. Most of our policy holders use Aflac money towards:

- **Loss of income**
- **Family expenses, such as rent or mortgage, utility bills, car payments, food, gas, childcare etc...**
- **Co-pays, deductibles, co-insurance, out of network, prescriptions, etc...**
- **Home health care, travel, lodging & more**

**Over 60% of foreclosures and bankruptcies are due to an individual or family suffering from an illness or injury. Just like you, Medical Insurance also covered those families. Problem: Two things happen during family illnesses or injuries; income drops & expenses escalate. Medical Insurance is designed to pay doctors & hospitals; Solution: Aflac is here to PAY YOU!**

**Aflac Plans are:**

- **Portable**
- **Voluntary**
- **Affordable**

**Please make an acknowledgement (Yes or No) if you would like to schedule a time to review your current Aflac coverage, make changes, or add coverage. An Aflac agent will contact you right away. Please submit this form to Debbie Gammage**
